

DRAFT 2006, 303(d) List of Impaired Waters Requiring a TMDL

Impaired Waters that Require a TMDL

-  Category 5 - Marginally Impairment of Water Quality
 -  Category 5 - More Severe Impairment of Water Quality
 -  Not Impaired or Impaired but Not Requiring a TMDL
- Political Boundaries
-  State boundary
 -  County boundary
 -  Town boundary

NOTES:

1. See the 2006 Consolidated Assessment and Listing Methodology (CALM) for details regarding how assessments were made.
2. TMDL stands for Total Maximum Daily Load study.
3. This map does not show threatened and/or impaired waters that do not require a TMDL.
4. In New Hampshire, fish/shellfish consumption advisories due to mercury are in effect for all surface waters. Waters impaired by mercury advisories were assessed as impaired and requiring a TMDL but were intentionally not shown on this map so that waters threatened or impaired by other causes and sources could be presented.
